

I am very discouraged to hear that KLOVE may be taken away from me in my community. I rely upon KLOVE to bring me the word of the LORD daily as I am driving in my car or at work. KLOVE is supported by local listeners through private donations, it would not be on the air if there were not a large group of faithful KLOVE listeners in my community. We support it locally with our prayers and dollars. It is important to a large number of citizens and provides a much needed spiritual support for many who would not receive it otherwise. I believe with all my heart that the service KLOVE provides all its listeners is a great public interest and should not be taken away from its faithful and dedicated listeners.
